Wall hung pan model

CISTERN FOR FURNITURE AND BACK TO WALL **INTRA**

ASSEMBLY INSTRUCTION

GROUND FIXED PAN MODEL

For supply connecting

Ensure tightness of connection to cistern with filter gasket.

WARNINGS:

- 1 - Do not overtight in any case.
- 2 - Do not use any sealing paste and/or compound in any case
- 3 - Do not use connector handling the internal part of the inlet valve.

SIAMP will be not responsible in case these warnings are not respected.

I - ATTACHING THE CISTERN

1 Attach the cistern attachment lugs

2 Position the cistern

3 Adjust the supply sleeve to the position of the toilet bowl (height and length)

4 Fit the supply sleeve nut and the seal

5 Position the toilet bowl seal

6 Insert the supply sleeve in the cistern

7 Tighten the supply sleeve nut

8 Connect the supply sleeve and the drain sleeve, reinstall the front of the cabinet and position the toilet bowl.

II - FLUSH BUTTON INSTALLATION

① Position the closing plate according to the type of control (top control (A) or front control (B))

② Attach the plate with the bolts

③ Position the button:
 - place button on panel and screw button nut
 - clip cable case
 - Place panel back on top or front of furniture

④ Close the furniture or panel

WALL HUNG PAN MODEL

For supply connecting

Ensure tightness of connection to cistern with filter gasket.

WARNINGS:

- 1 - Do not overtight in any case.
- 2 - Do not use any sealing paste and/or compound in any case
- 3 - Do not use connector handling the internal part of the inlet valve.

SIAMP will be not responsible in case these warnings are not respected.

I - INSTALLING THE TOILET BOWL FRAME

- 1 Measure the centre distance of the toilet bowl and insert the toilet bowl attachment rods in the holes in the frame corresponding to the centre distance
- 2 Lock the rods with the nuts
- 3 Attach the supply sleeve

- 4 Position the toilet bowl frame in the furniture or duct
- 5 Connect the drain sleeve
- 6 Attach the toilet bowl frame to the floor and to the wall.

II - ATTACHING THE CISTERN

- 1 Position the cistern temporarily on the supply sleeve
- 2 Mark the position of the cistern attachment lugs on the furniture
- 3 Remove the cistern
- 4 Attach the cistern attachment lugs and insure they are level

- 5 Position the cistern permanently.

III - TOILET BOWL CONNECTION

- Using a rule placed as shown in the above drawing, draw a mark on the toilet bowl side, on the two sleeves.

- Remove the sleeves from the toilet bowl and fit them to the frame. Using a rule placed as shown in the drawing above, make a mark on the wall side, on the two sleeves.

- For each of the sleeves, measure the dimension (L) between the two marks.
- Transfer this dimension (L) by increasing by 3 mm at the end (frame side) the size obtained on each sleeve. For instance, if $L = 50$ mm, shorten the sleeve by 53 mm.
- Cut the sleeves using a hack saw.
- Deburr the cut pipes using a file

- 7 Measure the thickness at the rear of the toilet bowl (B)
- 8 If necessary, cut the attaching rods (l) so that the part protruding from the wall measures (B) + 20 mm
- 9 Shorten the flexible sheaths (j) so that the part protruding from the wall measures (B) - 15 mm

- 10 Fit the supply sleeve (h) and the drain sleeve onto the toilet bowl. Then position the toilet bowl on the two attaching rods.

⚠ To facilitate the fitting of the drain sleeve onto the bowl and the pipe, use soapy water.

- 11 When the toilet bowl is correctly positioned, attach it using the toilet bowl fixing kit complying with the part stacking order:
 - i = centering washer
 - ii = metal washer
 - iii = nut
 - iv = cover

- 12 Connect the supply sleeve

IV - FLUSH BUTTON INSTALLATION

- 1 Position the closing plate according to the type of control (top control (A) or front control (B))
- 2 Attach the plate with the bolts
- 3 Position the button:
 - place button and screw button nut
 - clip cable case
 - Place lid back on top or front of furniture
- 4 Close the furniture.
