SIAMP

Sanitary expertise & water friendly

SIAMP

Sanitary expertise & water friendly

A SPECIALIST AT YOUR SERVICE FOR OVER 70 YEARS.

FOUNDED IN 1947, SIAMP DESIGNS AND MANUFACTURES INNOVATIVE SANITARY PRODUCTS FOR THE BATHROOM ENVIRONMENT: WALL HUNG SOLUTIONS, FLUSH PLATES, FLUSHING TECHNOLOGY, CISTERNS AND TOILET SEATS. WHETHER IT'S A COMMERCIAL PROJECT OR THE RENOVATION OF A DOMESTIC BATHROOM, SIAMP HAS THE SOLUTION.

Pioneer of the plastic toilet seat and now a global leader of flushing technology, SIAMP is the brand chosen by leading ceramic manufacturers to provide the flushing solution throughout the world.

Besides the head office based in Monaco, SIAMP is present across 5 continents through a network of 8 sales subsidiaries, 6 production sites and hundreds of distributors, for the benefit of millions of users

To remain a sanitary specialist in this evolving market, we invest in new technologies to develop new products and perfect the efficiency of manufacturing.

Understanding the importance of water sustainability, SIAMP continues to develop technical solutions to protect this resource for future generations.

SIAMP is regularly at the forefront of innovation recognised by a large number of international patents.

SIAMP IS PRESENT THROUGHOUT EUROPE, **AND WORLDWIDE.**

INNOVATIONS - SOLUTIONS - QUALITY CERTIFICATION SUSTAINABILITY - CUSTOMER SERVICE.

SIAMP is the origin of many innovations in the world of toilets and puts all its resources into designing and manufacturing innovative eco-efficient solutions that guarantee hygiene, comfort and responsible water management.

Our products are designed and developed in order to meet the most demanding international standards along with voluntary certification schemes

All SIAMP products are subjected to rigorous and intense tests, using our own, and third party test laboratories; Our WC frames are subjected to loads of 400 kg and our flushing systems to 200 000 repetitive performance and endurance tests.

Confident our products will exceed your expectations we offer generous guarantees for peace of mind.

WC Wall frames - 10 Years Concealed Cisterns - 10 Years Flush Plates - 2 Years UNDERSTANDING THE IMPORTANCE OF WATER SUSTAINABILITY, SIAMP CONTINUE TO DEVELOP TECHNICAL SOLUTIONS TO PROTECT THIS RESOURCE FOR FUTURE GENERATIONS.

WE ARE PROUD TO SUPPORT THE FOLLOWING WATER SAVING INITIATIVES.

WATER LABEL

The Unified Water Label is a voluntary scheme adopted by manufacturers to promote the water efficiency of their products.

The scheme enables customers, to easily compare the amount of water different products use and make informed decisions that will save them water and money.

Throughout the brochure we use the Unified Water Label to indicate the water efficiency of our products as outlined by the scheme.

www.europeanwaterlabel.eu

BREEAM

BREEAM is an international scheme that provides independent third party certification, assessing of the sustainability performance of individual buildings, communities and infrastructure projects.

BREEAM WAT 01 Water consumption - assessment aims to reduce the consumption of potable water for sanitary use in new buildings from all sources through the use of water efficient components and water recycling systems.

www.breeam.com

PART G

 $\label{lem:continuous} Approved \, \mbox{Document} \, \mbox{G of The Buildings Regulation outlines the requirement for water efficiency of new dwellings.}$

The potential consumption of wholesome water must not exceed more than 125 litres per person per day.

Wall hung toilets help create a luxurious look whilst providing many practical benefits.

Practical use of space - having the toilet suspended introduces space by having more floor surface exposed, making the room feel larger.

Easy cleaning - the suspended toilet means the floor is clear of any obstacles when cleaning, additionally all the pipework is concealed in the wall so there are no dust traps to gather dirt.

Accessible - the height of the toilet bowl can be raised for comfort or to aid the less-abled.

CHOOSING YOUR WC WALL FRAME

Choose from three types of wall frames - tall height frame, low height frame, slim frame.

Tall height frames have a height adjustment of between 1.1m - 1.3m. Designed to be used where there are no height restrictions. The flush plate is located above the toilet seat when open.

Low height frames have a height adjustment of between 0.79m - 0.99m. Designed to be used where there is a height restriction such as a window or low studded wall with a work surface. The flush plate is positioned behind the toilet seat which must be closed to operate the flush, leaving the toilet presentable for the next user.

Slim frames are full height with adjustment of between 1.11m-1.21m. Designed to fit into a tight space with a minimum installation depth of 100mm when the waste is exiting the wall directly behind the frame, and a minimum of 123mm when the waste is exiting left, right or vertically through the floor. The flush plate is located above the toilet seat when open.
